(e) As Class I milk if transferred or diverted in the form of bulk milk or bulk skim milk to an unapproved plant located not more than 200 miles from the approved plant unless the following

SUPPLEMENTAL ORDER AUTHORIZING SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE

Worcester Gas Light Company ("Worcester"), a public-utility subsidiary of New England Gas and Electric Association ("Negea"), a registered holding company, having filed an application, and amendments thereto, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and Rule U-50 promulgated thereunder, regarding the issuance and sale, at competitive bidding, of \$3,000,000 principal amount of First Mortgage Bonds, ____ percent Series due 1973; and

The Commission, by order dated September 16, 1953, having granted said application, as amended, subject to the condition, among others, that the proposed sale of bonds by Worcester should not be consummated until the results of competitive bidding, pursuant to Rule U-50 had been made a matter of record in this proceeding and a further order entered by this Commission in the light of the record so completed; and jurisdiction having been reserved over the payment of all fees and expenses incurred or to be incurred in connection with the proposed transactions; and

Worcester, on September 29, 1953, having filed a further amendment to its application setting forth the action taken by it to comply with the requirements of Rule U-50 and stating that pursuant to the invitation for competitive bids on the bonds, the following bids were received:

Bidder	Annual interest rate (per- cent)	Price to company ¹ (percent of prin- cipal)	Annual cost to company (percent)

1 Exclusive of accrued interest from Sept. 1, 1953.

The amendment further stating that Worcester has accepted the bid of Halsey, Stuart & Co., Inc. for the bonds, as set forth above, and that the bonds will be initially offered for sale to the public at a price of 101.375 percent of their principal amount, plus accrued interest from September 1, 1953, resulting in an underwriting spread of 0.936 percent of the principal amount of the bonds, or an aggregate of \$28,080; and

American Natural Gas Co. and American Louisiana Pipe Line Co.

MEMORANDUM OPINION AND ORDER AUTHOR-IZING ISSUANCE AND SALE BY NON-UTILITY SUBSIDIARY OF SHARES OF ITS COMMON STOCK TO ITS PARENT FOR CASH CONSID-ERATION

SEPTEMBER 29, 1953.

American Natural Gas Company ("American Natural"), a registered holding company, and American Louisiana Pipe Line Company ("American Louisiana") a non-utility subsidiary thereof, have filed, pursuant to sections 6 (a) 7, 9 (a) 10, and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 (a) (3) promulgated thereunder a joint application-declaration, as amended, with respect to the following proposed transactions:

American Louisiana, a Delaware corporation, was recently organized to construct and operate a natural gas pipeline system extending from points in Louisiana to Detroit, Michigan. It has an authorized capital stock consisting of three hundred fifty thousand (350,000) shares of the par value of one hundred dollars (\$100) each, all of one class.

From time to time as funds are needed by American Louisiana to pay certain preliminary costs and expenses of such pipeline project, and for other corporate purposes, American Louisiana proposes to issue to American Natural for cash at the par value thereof such number of shares of its capital stock (up to but not exceeding 5,000 shares) as may be necessary to provide funds for such purposes; and American Natural proposes to acquire and pay for the shares so issued to it.

Prior to commencement of construction of its proposed pipeline system, it will be necessary for American Louisiana to obtain from the Federal Power Commission under section 7 of the Natural Gas Act a Certificate of Public Convenience and Necessity authorizing the construction and operation of the proposed pipeline system. The funds proposed to be invested by American Natural in American Louisiana pursuant to this application will enable American Louisiana to pay the costs and expenses incurred and to be incurred in obtaining the gas contracts and in preparing, filing and prosecuting an application for such Certificate and in the necessary studies, surveys and other action preparatory thereto.

Fees and expenses relating to the proposed transactions are estimated at \$5,500 which include a fee of \$2,350 to Sidley, Austin, Burgess & Smith, counsel for American Natural and American Louisiana.

No approval or consent of any regulatory body other than this Commission is necessary for consummation of the transactions now proposed. Applicants-declarants request that the Commission's order herein become effective upon issuance.

Following issuance of a notice of filing regarding the proposals and receipt of requests for a hearing filed by, among others, certain interested state agencies, we ordered that a hearing be held on the application-declaration.

Representatives of the Public Service Commission of Indiana, the Attorney General of Wisconsin, the City of Detroit, Michigan, and of Panhandle Eastern Pipe Line Company appeared at the hearing and participated therein. The City of Milwaukee, Wisconsin, and the Michigan Public Service Commission also entered appearances. None of such participants opposed the proposed transactions and the City of Detroit asked that they be approved.

The American Natural gas utility system includes two gas distribution companies, Michigan Consolidated Gas Company ("Michigan Consolidated") and Milwaukee Gas Light Company ("Milwaukee") and Michigan-Wisconsin Pipeline Company ("Michigan-Wisconsin"), a non-utility gas transmission company which supplies natural gas to Michigan Consolidated and Milwaukee and to fourteen other utility customers.

The proposed transactions are stated to be a part of a program by which American Natural intends to supplement the supply of natural gas presently available to its markets. As indicated above, construction of the projected pipelino will be subject to the jurisdiction of the Federal Power Commission under the certificate provisions of the Natural Gas Act and it is conceded that the overall financing program of the proposed line will require further authorization by this Commission.

On the basis of the record we find that the applicable provisions of the act and the rules promulgated thereunder are satisfied, that no adverse findings are necessary, and that the fees and expenses as estimated are not unreasonable and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective forthwith without the imposition of terms and conditions, other than those contained in Rule U-24.

It is ordered, Pursuant to the applicable provisions of the act, that said joint applicant-declaration, as amended, be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.
